ASTI-OP®

PUR RIGID FOAM

www.BEIL-PEINE.de

ASTI-OP®

Our new ASTI-OP® – now even better!

- **Easy to process** – processes smoothly and reliably
- **Sustainable raw material content** – contains 10% renewable polyol
- **Water-driven system** – for particularly user-friendly processing
- **No sediment** – thanks to the elimination of molecular sieve
- **CFC-free** – an environmentally friendly composition
- **Low-CO₂ production** – manufactured with resource efficiency in mind
- **Short transport distances** – through regional sourcing of raw materials
- **Made in Germany** – quality and origin from a single source

Processing times and densities remain at the usual, proven quality.
